Sterling Vikrell

Advantage™ 60" Seated Shower - OCSS60 seated shower stall. Modular 4-piece design components move easily around corners, through doorways as narrow as 16" for installation at any stage of new home construction or remodeling. Compression molded from Vikrell™ material, color molded throughout to eliminate peeling, chips, and cracks. Durable lightly textured swirl gloss finish hides minor scratches and offers exceptional resistance to permanent damage. The 60" unit features tile pattern in wall, which closely simulates real tile and grout. Lightly pebbled slip-resistant bottom surface enhances user safety. Tongue-in-groove *snap together* caulkless joint installation eliminates need for bolts, nuts, or wrenches. Molded-in seats and toiletry shelf on the endwall with extra shelving and towel bar on the backwall. 10 year consumer, 3 year commercial limited warranty to original purchaser. *Complete unit requires: 1 each base and 1 each back/end wall set.*

Color: White

Width: 60"

Height: 76"

Depth: 34"

Drain: 30" from sidewall, 16-1/4" from backwall, 3-15/16" diameter drain opening tapers out to fit a drain with 4-1/4" strainer

Upflush Basement Toilet System - Basement bathroom system is used to install a bathroom up to 12' below the sewer line, even up to 150' away from a soil stack. Simple to install, only 4 connections. Rear discharge toilet mounts directly to the floor. Macerating pump will discharge a toilet, bathtub, and lavatory. Pumps waste through a 3/4" PVC or CPVC discharge pipe into the overhead sewer line. Unit can pump waste horizontally up to 150'. Includes 3' cord with grounded 120V plug. Must be plugged into a 15A GFI receptacle. Toilet tank, toilet bowl, and macerating pump are required to complete the system. Toilet seat not included. White.

PLUMBING/PUMPS

Roebic Laboratories

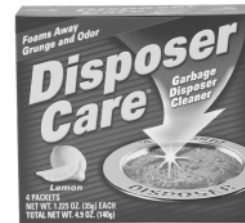

Garbage Disposer Cleaner - Formulated with specialized bacteria, enzymes, and surfactant that breaks down the sludge and crusting that build-up in disposers. The natural cleaning process actually removes the cause of the odors, does not simply mask the odor, and leaves the disposer with a clean, fresh scent. 32 oz. container.

Fluidmaster Inc.

Adjustable Ball Cock - Works on the principle of utilizing fluid energy for shut-off, rather than limited energy of floatation. The adjustable anti-siphon FLC valve provides less shut-off noise, shorter fill-up time, positive shut-off, elimination of water waste and drip. Entire ball cock is constructed of noncorrosive plastic and metal materials. The FLC valve is adjustable from 9-1/2" to 14" high and fits most any toilet tank.

TANK REPAIR

Fluidmaster Inc.

Leak Sentry™ Adjustable Ball Cock - All the proven features of the model No. 400A, plus Leak Sentry™ technology to halt costly undiscovered toilet tank leaks. Works by preventing endless refills of a leaky tank when a tank is emptied by a leak, its unique *locking* action forces people to press the flush lever twice (once to refill and again to flush). At most, only 1 tank of water can leak from a model No. 400LS equipped toilet. Adjustable bowl refill prevents wasteful overfill. Ideal for hotel/motel, multi-housing applications, vacation homes, and seldom used bathrooms. Toilet always remains operational. Height adjusts 9" to 14" to fit most toilets, including 1.6 GPF models. Anti-siphon operation, code approved. Made of corrosion-resistant materials that withstand harsh water and constant use. 5 year warranty.

Fluidmaster Inc.

Wax-Free™ Bowl Gasket - Wax-free toilet installation, allows a sure fit on any surface, no matter what the temperature. Can be readjusted during installation or even revised during the course of multi-step tile flooring work. Fits both 3" and 4" drain pipes. Adapts to all types of flooring. Position and design of moisture-proof seal and o-ring prevents splash-up and rotting of floor flange. Heavy-duty o-ring seals tightly to block sewer gases. Works with PVC, ABS drain pipes with or without inner lip, or cast-iron drain pipes. Solid brass bolts secure bowl to floor. Each kit includes: One 3" gasket, one 4" sleeve, 3 o-rings, cardboard spacer, 2 sets of bolts, nuts, washers, and retainers. 10 year warranty.

MAINLINES TO DRAINLINES

Everything you need to unclog all drain and sewer lines

Model C (3'-10' lines up to 200')

- Easy, one-man operation
- Direct cable drive off front of machine allows 500 RPM cable rotation (twice that of drum machines) and distances over 200 ft.
- Enclosed 1/2-H.P. capacitor motor with custom-built gear mechanism gives you longer life and plenty of power
- Weighs only 75 lbs. for easy handling & transport
- Folding handle makes for compact storage and allows use in crawl spaces
- Adjustable clutch protects machine and cable from overload in tough stoppages and gives operator more power at the turn of a screw

Kit Price: \$1990.00

Model 800 (4'-24' lines up to 650')

- 8 H.P. gas or 9 H.P. diesel engine
- Runs up to 650'
- Hydrostatic transmission
- Safety clutch for cable overload protection
- Uses 8 ft. heavy-duty municipal dual cable
- Ideal for contractors and municipalities
- Optional trailer for support
- Wide variety of cleaning tools available
- 10" pneumatic tires for easy maneuverability
- Portable

Kit Price: \$8930.00

Model EJ1500 (1 1/2'-4' lines up to 100')

- Electric
- 1500 PSI/1.7 GPM
- Pulsation valve
- Heavy-duty 1 1/2 H.P. Baldor motor
- Runs 1/4" and 1/8" hose
- Pump/motor assembly removes from cart in seconds

Kit Price: \$2355.00

Model N (1 1/4'-3' lines up to 100')

- Runs up to 75' of self-feeding Dualmatic cable in low-maintenance 5' sections
- Built-in safety clutch
- Drum removes quickly, easily
- Convenient foot operating switch
- Also runs up to 100' of 1/2" continuous cable
- Optional 2-wheel cart for easy transport

Kit Price: \$1090.00

Model D-5 (3'-10' lines up to 100')

- High density polyethylene drum and belt guard will not rust or dent
- 3 sealed heavy duty ball bearings, support for drum and thick wall guide tube for extended wear
- Large 10" solid wheels for stabilization of unit while in operation
- Heavy-duty 1/2 H.P. capacitor type motor produces more torque
- 5 position height adjustment on handle
- Continuous belt skids and wheel on handle for easy loading
- Quick remove continuous cable feeder and drum

Kit Price: \$1895.00

Model E (1 1/4'-3' lines up to 75')

- Built-in drum shaft slip clutch
- Unique inner drum design
- Epoxy powder coated drum helps deter corrosion
- Rugged 1/3 H.P. motor with ground fault circuit interrupter
- Runs up to 75' of 3/8" or 1/2" diameter certified music wire cable with genuine galvanized aircraft wire inner core
- Optional 2-wheel cart for easy transport (shown)

Kit Price: \$629.00

Model R (3'-6' lines, to 100')

- Compact drum-type machine cleans lines up to 100'
- 1/3 H.P. capacitor motor
- Air operated on/off switch
- Optional drum splash guard
- Runs 3/8" or 1/4" cable
- Heavy-duty 1 1/4" steel tubing frame

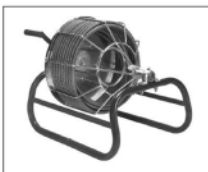

Kit Price: \$1570.00

Model S (1 1/4'-2 1/2' lines up to 35')

- Commercial grade 1/2" heavy duty drill
- Compact and lightweight
- Stainless steel cable drum
- Cast aluminum hand guard
- Hand-tighten cable chuck
- Expanded end or Drop Head cable in 15', 25', 35' lengths

Kit Price: \$460.00

Model K (1 1/4'-3' lines up to 100')

- Runs up to 100'
- Nickel-plated steel cable cage rotates freely
- Self-aligning bearings
- Thumbscrew locks cable at front of cage
- Comes with 1/2" diameter monowire cable or 1/2" aircraft wire reinforced inner core cable

Kit Price: \$330.00

Hande (1" - 2 1/2" lines up to 35')

- Opens clogged sinks, lavatories, bathtubs and shower stall drains
- Runs 1/4" and 3/16" diameter cable

Kit Price: \$61.90

UTILITY PUMP

Wayne Home Equipment

Submersible Utility Pump - A compact centrifugal pump designed for a variety of uses such as draining basements, boats, stock tanks, truck docks, flat roofs, weight scales, etc. and other applications. Pumps from a water level depth of 3/4" or higher, down to 1/8" of the pumping surface ie: Floor, bottom of a tank, bottom of the boat, etc. Features and benefits: Motor: High efficiency 1/4 HP 1 PH, 60Hz, 115V, 3000 RPM. Oil filled motor for quiet and cool running. Sealed for use under water. Overload Protected: Prevents motor burnouts. Automatically restarts the pump when it is safe to continue operation. Electrical Cord: Pump is completely wired with 8' of 3-wire cord and a 3 prong grounding type plug. Thermoplastic Pump Housing: Will not rust or corrode. Impeller: Precision molded for high gallon per hour efficiency. Lifting Ring: Allows pump to be carried or suspended easily. Water Outlet 3/4" NPT: For plastic pipe install 3/4" Male to plastic adapter. Hose Adapter: installed in water outlet. Will not break, corrode or rust. A perfect garden hose connection. Stainless Steel Screen: Prevents large particles from entering.

SUMP PUMP

Flint Walling/Star

Water-Activated Backup Sump Pump - Home Guard City water backup sump pump. No electricity or battery required... works even during power failures on municipal systems. Constructed of anti-corrosive materials for long life. Fast and easy installation. Compact pump design installs next to or above primary AC sump pump. Works with all brands of sump pumps. 1 year limited warranty.

*Pump capacity varies due to: Inlet water pressure, working water pressure, discharge elevation, number of pipe fittings, inlet and outlet hose size, fluid viscosity, degree of water clarity, water temperature, and cleanliness of intake screen. The flow rates in the chart are approximate values.

NOTE: Some districts may require a reduced pressure principle backflow preventer per ASSE standards 1013. Check local codes.

Emergency Battery Pump - Fully automatic basement protection in the event of a power failure. This system operates on a 12V automotive battery and is self charging. Includes 12V pump, mercury switch, battery case, control panel and battery charger. Pumps up to 25 GPM at 5' vertical lift. 1 year warranty. Battery not included.

Product No.	Mfg. No.	Description	Order Mult.	Weight	Unit Cost
405396-B	ESP15-57609	Emergency Battery Pump	0/0/1	10.000	174.99 EA

Flint Walling/Star

Battery Backup Sump Pump - If power goes out or the main pump fails, the Silent Sentry will keep the basement dry and free of potential damage. Pumps up to 29 GPM at 5' vertical lift. Control panel constantly monitors battery, battery connections, backup pump fuse, and power conditions. Senses and identifies problems and sounds alarm. Battery charger keeps battery properly charged. Also recharges battery when power is restored. Operates up to 7 hours continuously on a single full battery charge. Uses any standard 12V automotive or marine deep cycle battery. Automatically switches to battery power in emergency situations such as AC power outage or primary sump pump failure. Compact pump installs next to primary AC pump. Works with most brands of column or submersible sump pumps. Molded pump housing will not rust or corrode. 1 year limited warranty. Marine deep cycle battery is recommended for longer life and dependability. Battery not included.

Cast-Iron Submersible Sump Pump - CDU 790. 2-pole switch...positive On/Off action. Disconnecting 115V conductors prevent lightening damage. Float...automatically starts and stops pump. Operates vertically to save space. Automatic overload...prevents damage to motor windings. Compact...operates in sump pits as small as 10" in diameter. Ball bearing...never needs oiling, permanently lubricated. Cord set. Waterproof 3-prong grounding type, 8' in length. Watertight shaft seal...liquid lubricated, ceramic seal, prevents water from entering motor housing. Oil encased for quiet, cool operation, and permanent lubrication. Pump is warranted for 3 years. 1-1/2" discharge with 1-1/4" M.I.P.S. adapter.

Watts Water Technologies

Hot Water Pump Recirculating System - All new hot water recirculating pump turns your existing plumbing system into a hot water loop. Installation is a breeze, recirculating pump mounts onto the hot water outlet on your water heater, 24 hour timer on pump can be set to turn pump On/Off during high demand periods or pump can run continuously. The thermal sensor (thermal check valve) installs into the furthest lavatory faucet from the water heater on the plumbing run. The thermal sensor opens to allow the cooled water in the hot water line to be pumped out through to the cold water line and delivers hot water when you want it. Saves 10,000 gallon a year in wasted water. 120V pump motor with 10' grounded plug.

Advanced Drainage Sy.

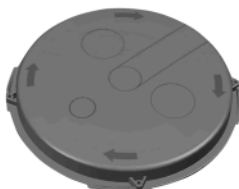

Sump Pump Well Liner - A heavy-duty product molded from strong, yet lightweight, high-density polyethylene plastic. Completely corrosion proof and acid, alkali, and frost-resistant. Will not crumble, break, or rust. 3 preformed inlet collars accept corrugated lines from inside the basement perimeter or floor drains. These lines snap on the collars quickly and easily. A molded in panel on the side of the sump (which normally faces toward the basement footer) is designed for accepting the outside basement perimeter drainage line at the height desired. Lid model No. 1537ADL (not included) fits inside top diameter of sump. Liner size: 19" x 24".

Product No.	Mfg. No.	Description	Order Mult.	Weight	Unit Cost

Flint Walling/Star

Do it Best® Shallow Well Jet Pump - With repairable shallow well ejector and Square D pressure switch factory set at 30 to 50 P.S.I. The ES jet pump is specifically designed for shallow well applications with suction lifts up to 25'. 1-1/4" suction and 3/4" discharge. Ideal for homes, farms, cottages, and booster service, the unit is capable of delivering up to 1030 gallon of water per hour at pressures required for the efficient use of today's water-using appliances. Single-phase, 60 Hz, 3450 RPM, dual-voltage motor features Uni-Frame construction, copper windings, double-ball bearings and overload protection with automatic restart. 1 year limited warranty.

Wayne Home Equipment

Water Well Pump - Features

- **Rubber Gasket** - Resilient ring firmly seals water housing against leaks. No flat paper gaskets.
- **Improved Water Housing** - Assembly with deep water channels insure continuous water volume while maintaining high water pressure.
- **Automatic Pressure Switch** - Automatically turns pump on and off to keep tank filled.
- **Copper Tubing** - Will not corrode or crack regardless of water or weather conditions.
- **Additional Seal Plates** - Prevents water from entering motor.
- **Universal Square Flange** - Allows easy motor replacement.
- **Integrated Priming Port.**
- **Heavy-Duty Motor** - Large diameter motor assures cool running, trouble-free efficient operation for many years in high and low voltage areas. Sealed bearing stainless steel shaft.
- **Overload Protection Switch** - Overload protector is built into motor housing. Prevents costly damage to motor windings.
- **Water Tight Seal** - Ceramic seal is liquid-lubricated for life. Never needs oiling or new packing. Eliminates problem of dripping water.
- **Impeller** - Precision-machined and balanced impeller. Threaded to motor shaft and cannot slip or come loose. Glass reinforced lexan. SWS50-1/2 HP, 1 PH, 60 HZ, 115/230V, factory wired for 115V, 3450 RPM, capacitor start, overload protected.

Reliance® FVIR 606 Propane Features -

- Compliant with requirements based on the National Appliance Energy Conservation Act (NAECA) that became effective on 1/19/04.
- Offers Corderite Combustion Containment Technology (C3), covered by 4 U.S. patents, meets American National Standards Institute (ANSI) standards that deal with the accidental or unintended ignition of flammable vapors, such as those emitted by gasoline.
- Features a sealed combustion chamber with an air intake screen and a fireproof Corderite flame arrestor built into the water heater base. The flame arrestor is designed so any flames burn off the top surface and cannot escape down through the arrestor.
- In addition, a thermal cutoff (TCO) device, integral with the thermocouple, is designed to shut off gas flow to the burner and pilot if poor combustion is detected.
- Easy-To-Light Piezo Ignition
- Glasslined Tank
- Aluminum Anode Rod
- Convenient Temperature Control
- .88" Foam Insulation - 7.00 R Value
- Almond Jacket with Almond Trim
- Factory Installed T & P Valve
- 6 Year Tank And Parts Warranty
- 1/2" F.I.P.S. Gas Connection

NOTE: Not for use in mobile homes.

Mobile Home Gas Water Heater - Compliant with requirements based on the National Appliance Energy Conservation Act (NAECA) that became effective on 1/19/04. 30 or 40 gallon natural or propane gas burner with convertible control. 2" foam insulated, R 8.33 energy efficient. 3/4" side mounted cold water inlet, 3/4" top mounted hot water outlet. Includes mounting brackets. HUD approved. For mobile home installation. 6 year tank warranty. 6 year parts warranty.

NOTE: The 630-NOMT and 640-NOMT are standard mobile home/manufactured housing units. Some mobile home/manufactured houses require a special direct vent from the bottom of the water heater. Refer to model No.

6-30-NHDST or 6-40-NHDST for this type of unit.

Mobile Home Electric Water Heater -

- Compliant with requirements based on the National Appliance Energy Conservation Act (NAECA) that became effective on 1/19/04
 - Meets The Housing & Urban Development (HUD) Manufactured House Construction & Safety Standards
 - 6 Year Tank Warranty
 - 6 Year Parts Warranty
 - Glass Lined Tank
 - Aluminum Anode Rod
 - Side Plumbing
 - Factory Installed Temperature Pressure Relief Valve
 - Single 3800W/240V Heating Element
 - 30 And 40 Gallon Sizes Have 2" Foam Insulation, With A 16R-Value
 - No Dip Tube As Side Bottom Inlet Eliminates Need For Dip Tube
- NOTE:** *Units manufactured in 1999 and 2000 use a special 1-3/8" diameter element model No. 9002442TR.

Culligan® Under Sink Drinking Water System - Monitored dual filtration system offers dual cartridge filtration in a compact design that fits conveniently underneath the sink. 2 carbon cartridges reduce MTBE, lead, mercury, asbestos, pesticides, herbicides and chemicals (VOCs), chlorine taste and odor, other bad tastes and odors, and sediment for up to 500 gallon (approximately 6 months). Filter life monitor measures water flow and beeps when cartridges need changing, while the monitor's display lights change color to indicate different stages in the life of the filter. Quick-connect fittings help eliminate installation hassles. Separate lead-free long reach faucet, cartridge set, o-ring, and filter housing wrench are included. Refer to model No. D250 for replacement filter cartridges. 1 year limited warranty.
